CUTTING FLUID

Since 1953, Tap Magic has been dedicated to helping you achieve greater metal cutting precision, superior finishes, and longer tool life. Tap Magic is the world leader in cutting fluid technology.

TAP MAGIC PROTAP

This is our original biodegradable formula. Use it for all cuts on all metals. Outstanding performance makes it one of our most popular fluids.

TAP MAGIC FORMULA 1 AQUEOUS

This is an earth-friendly formula with a special aqueous base to help you keep your work and workplace cleaner. It contains the proprietary EP-X3® additive for a synergistic boost in performance. It also contains anti-corrosion additives to prevent rust and it's 100% biodegradable!

TAP MAGIC FORMULA 2 ECO-OIL

This earth-friendly formula has a base of natural oil & a special low-odor, low-smoke formulation for those cuts that produce a lot of heat. It also contains the proprietary EP-X3® additive for a synergistic boost in performance. And it's also 100% biodegradable.

TAP MAGIC with EP-XTRA

This is an ozone-friendly formula that gives you outstanding performance for any cutting operation on any metal. This formula is absolutely without equal on hard metals and for cuts of extreme pressure or long duration.

TAP MAGIC ALUMINUM is the most effective cutting fluid you can use - providing excellent performance for any and all cutting operations.
